

Indicator <sup>1</sup>	Subclass	Measurement <sup>12</sup>	Category <sup>3</sup>
Economy	General	Interviews for businesses exiting and entering the area	ES
	Business	Commercial building vacancies and turnovers	ES
		Number of year round businesses	ES
		Number of new businesses, jobs, trends	ES
		Evaluate incentives for improvements	ES
		Average age of commercial buildings, commercial vacancy rates, turnover	ES
		Interviews for businesses exiting and entering the area	ES
		Revenue by industry	ES
		Affordability of shopping for locals	ES
		Size and diversity of business	ES
		Annual capital investment by private sector	ES
		Reinvestment in public works, private commercial, residential	ES
	Children		
	Diversity		
	Employment	Occupations of residents	CS
		Proportion of labor force who are local residents	CS
		Employment by economic sector	ES
	Finance	Evaluate incentives for improvements	ES
		Development costs compared to other areas	ES
		Amount, percent of redevelopment	ES
	Income	Permanent population trends, age, income distribution, ethnic diversity	CS
		Average household income, real median household income, permanent population living below poverty line	CS
		Average wages and trends over time	ES
	Resource Use	Air quality	ENS
	Sales	Tourist accommodation room nights and transient occupancy tax collections	ES
		Retail sales tax and sales tax collections	ES
		Recirculated dollars vs. dollars spent elsewhere	ES
	Tourism	Tourist accommodation room nights and transient occupancy tax collections	ES
	Transportation		

<sup>1</sup> Indicators and Subclasses are taken from a general list of indicators by category provided by Sustainable Measures. <http://www.sustainablemeasures.com/>

<sup>2</sup> These measurements resulted from a September 2004 workshop entitled Integrating Environmental and Community Sustainability.

<sup>3</sup> CS = Community Sustainability ES = Economic Sustainability ENS = Environmental Sustainability. These categories were established in the September 2004 workshop.

Indicator <sup>1</sup>	Subclass	Measurement <sup>12</sup>	Category <sup>3</sup>
Education	Adult		
	Children	School enrollment statistics and trends	CS
	Literacy		
	Post-Secondary	School enrollment statistics and trends	CS
	Schools	School enrollment statistics and trends	CS
	Skills		
	Sustainability		
	Teacher		
	Training		
	Volunteers		
	Youth	School enrollment statistics and trends	CS
Environment	Air	Air quality	ENS
	Awareness		
	Biodiversity	Forest health	ENS
	Fish	Water quality	ENS
	Global		
	Groundwater	Water quality	ENS
	Human	Air quality	ENS
	Land Use	Number of urban public gathering spaces and usage	CS
		Average age of community infrastructure	ES
		Capacity to access community assets without negative environmental impacts	ENS
		Forest health	ENS
	Soil		
	Surface Water	Water clarity	ENS
	Wetlands		
Government	Diversity		
	Effectiveness		
	Participation	Voter registrations, participation	CS
	Regulations	Evaluate incentives for improvements	ES
	Services		
	Taxes		
	Volunteerism		

Indicator <sup>1</sup>	Subclass	Measurement <sup>12</sup>	Category <sup>3</sup>
Health	Access to Care		
	Children		
	Cost		
	Disease		
	Drug Use		
	Fitness		
	Insurance		
	Mortality		
	Pregnancy/Birth		
Housing	Availability	Percentage of income spent for housing	CS
		Number and percent of second homes, percent time occupied	CS
		Housing prices and trends	ES
	Condition		
	Cost	Housing prices and trends	ES
		Percentage of income spent for housing	CS
Population	Growth	Permanent population trends, age, income distribution, ethnic diversity	CS
		Ratio of permanent residents to visitor population	CS
	Migration	Number and percent of second homes, percent of time occupied	CS
	Structure	Permanent population trends, age, income distribution, ethnic diversity	CS
Public Safety	Accidents		
	Crime		
	Juvenile Crime		
	Services		
	Violence		
Recreation	Accessibility	Ski area day and package tickets	ES
		Capacity to access community assets without negative environmental impacts	ENS
	Cost		
	Land Use		
	Participation	Cultural and special event impacts	ES
		Weddings and event bookings	ES

Indicator <sup>1</sup>	Subclass	Measurement <sup>12</sup>	Category <sup>3</sup>
Resource Use	Energy		
	Hazardous Materials		
	Materials	Capacity to access community assets without negative environmental impacts	ENS
		Determine carrying capacity of community for full-time residents	ENS
		Water clarity	ENS
	Recycling	Use of recycling services	ENS
	Renewable	Forest health	ENS
	Renewable		
	Solid Waste		
	Waste Water		
Water	Water clarity	ENS	
Society	Abuse		
	Children		
	Connectedness	Number of urban public gathering spaces and usage	CS
		Interview of residents exiting and entering the area	CS
		Cultural and special event impacts	ES
		Location and degree of access to technology	ES
	Culture	Interview of residents exiting and entering the area	CS
		Number of arts and cultural events	CS
	Diversity	Diversity of involvement in civic activities (ethnic, age, income)	CS
		Interview of residents exiting and entering the area	CS
	Literacy		
	Mental Health		
Pregnancy/Birth			
Volunteerism			
Transportation	Air		
	Alternate	Use of non-auto multimodal transportation; miles of bike trails	CS
	Commute	Commute distance	CS
	Infrastructure		
	Public Transit	Levels and frequency of transit ridership	CS
	Vehicle
